

# BUFLEX / TOLEX 150mm DISCS

9710003 Kit

Buflex (a unique dry sanding system) and Tolex (a dry sanding system) integrates an **ultra-flexible latex** abrasive sheet and a specially formulated pad that cuts fast with a **shallow scratch pattern** which is **easier to polish** than 3000 grit or finer. In addition, because of Buflex's flexibility, it can even polish inside the valleys of orange peel without eliminating its texture, making **matching OEM finishes** a breeze. Its easy to see how this system is effective even on the most uneven surfaces.

*Cuts buffing time down*
