

Don't Just Cover it - Protect it!

● Wheel Paint System

Wondermask® WPS

The Revolution of Wheel Rim Painting

Horn & Bauer
Folientechnik

● Play it safe with **Wondermask® WPS**

08/2012

● Application of **Wondermask® WPS**

- Deflate the tyre and break the sealed bead
- Place **Wondermask® WPS** between the wheel rim and the tyre in less than 10 seconds
- Stretch the **Wondermask® WPS** until it becomes fixed around the full wheel rim
- Secure the **Wondermask® WPS** to the underside of the tyre before painting
- Now you are ready to go!

● Advantages of **Wondermask® WPS** at a glance

- Speed of application – provides dramatic time savings compared to tape and paper (less than 2 min versus up to 15 min per wheel rim)
- Material savings – reduced use of tape and paper
- No more rework
- Only one size required – suitable for all common wheel rims
- Easy and precise handling due to highly elastic material components
- No need to remove tyre from the wheel
- Environmentally friendly compared to conventional methods
- Problem solving with **Wondermask® WPS**

● Paint absorbent Masking Protection

- Avoids paint over spray
- Perfect paint absorbency
- Water resistant, tough and tear resistant, lint free
- Efficient use of material

● Packaging

		Dispenser box	Part No:
Wheel covers	1300x1300 mm	80 pieces	312 406
Wheel covers	1300x1300 mm	30 pieces	315 703

● The convenient Dispenser Box

- The film remains dust free resulting in less re-work
- Clean storage, stackable
- Wall-unit for the dispenser box **308 016**

For the production of **Wondermask® WPS** only polythene mixtures are used, which are environmentally friendly, free of heavy metals and do not influence ground water.
