

METAPLAST

Multifunctional product for renewal and protection of plastic and metal surfaces in car interiors. It gives a glossy, shielding, non-greasy, hydrorepellant and long-lasting layer. Can be applied also on exterior plastic surfaces.

Its unique water-based formula and the trigger sprayer allow an easy and effective application, both on smooth and textured surfaces.

CHARACTERISTICS

Base: O/W emulsion

Relative density: 0,90 g/cm³ ± 0,05

Color: white

SUBSTRATE PREPARATION

For excellent results, it is recommended to apply on clean and degreased surfaces.

Gelson suggests the use of specific DI180 interior cleaner and a HITEX cloth.

APPLICATION

Ready to use product.

Spray the product directly on the surface. Spread it evenly using a manual application pad (e.g. cod. 86304/115N).

Polish and remove excess product with a green microfiber cloth.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
