PRODUCT DATA SHEET

Rev. 1 dated 09/09/2009

Novo-Gel is a special water-based pigmented product with a long-lasting effect to brighten the appearance of bumpers, spoilers, side moulding and other plastic car parts.

Not suitable for internal parts.

CHARACTERISTICS:

Base: aqueous emulsion
Specific gravity: 1.03 g/cm³ ± 0.02
Colour: black, grey

APPLICATION:

Apply with a water-moistened sponge on clean, washed and degreased surfaces.

If the surface to be treated is heavily discoloured, allow the first coat to dry for 10-15 minutes and then repeat the application.

Wash hands and tools with water immediately after use.

Do not apply in the sun. Shake well before use.

STORAGE:

12 months in a cool, dry place.
Keep away from frost!
