

PF107

DESCRIPTION

One-component pinhole filler.

Film-forming product, very suitable for being applied directly on polyester putties after sanding and before applying the primer or filler.

Enhances the gloss and the final appearance of the coated surface.

CHARACTERISTICS

- Specific gravity: $1,58 \text{ g/cm}^3 \pm 0,05$
- Colour: dark grey

APPLICATION

Apply with the applicator included in the kit (cod. 86340/115N), then let dry for 15-20 min at 20°C.

Remove the exceeding product with the Very Fine handpad included in the kit.

Clean the surface with a water-based anti-silicone product (No-Sil Aqua; code 15650) and continue with the painting cycle.

Do not blow with air!

Sanding is not needed.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
